**Introduction**

**Background**
The data maintained by the Organisation Data Service (ODS) has recently had a new Information Standard (0090) for 'Health and Social Care Organisation Reference Data' approved and published. This Information Standard has proposed a series of modifications to the existing organisation data interface to address some long-standing issues. The ODS project team have created several tools to explain and assess the potential impact of the changes, these are all available via the Engagement Portal.

**Why are we consulting**
The purpose of this survey is to get your feedback on the potential impact of the changes described in the Information Standard Notice (ISN). The results will be used to identify and plan how we can support you with these changes.

We do ask for some personal information (contact details) within the questionnaire, in order to follow up with you if required and offer you relevant advice and guidance. Any identifiable information you provide will be kept securely and will not be published or shared. Your individual responses will only be available to the ORD Project Team.

Participation in the survey is completely voluntary, and it should take no more than 15 minutes to complete. You can withdraw your response at any point whilst the survey remains open. Should you wish to withdraw your response after the survey has closed, please contact the ORD Project Team (see below for contact details).

**Timescales**
This is an open-ended questionnaire. The project team will be monitoring responses and following up with additional advice and guidance if required. A summary of key findings from the survey will be published via the ORD Engagement Portal, at regular intervals.

**Queries / Contact Us**
If you wish to speak with a member of the ORD Project Team, please log a request by emailing Exeter.helpdesk@nhs.net quoting 'ORD Changes'. A member of the project team will then call you.
Q1.a
Responder Name
You must provide an answer to this question.

Q1.b
Responder Job Title
You must provide an answer to this question.

Q1.c
Responder Email Address
You must provide an answer to this question.

Q1.d
Responder Telephone Number

Q1.e
Responder's Organization Name
You must provide an answer to this question.
Q2

Were you aware of the Information Standards Notice (0020) prior to the data changes project contacting you?

You must provide an answer to this question.

- Yes
- No

Q3

Do you know the impacts to your IT systems and business processes?

You must provide an answer to this question.

- Yes, and there are no impacts to our systems or processes
- Yes, and there are impacts
- No, impact assessment not yet complete

- If option 1 (Yes, and there are no impacts to our systems or processes) of this question was selected then jump to Q10
  (Any further information you would like to provide as impacts or implementation of ANIMA or XML...)
- If option 2 (Yes, and there are impacts) of this question was selected then jump to Q4
  (In relation to the introduction of the ANIMA code frame: What are the nature of the impacts...?)
- If option 3 (No, impact assessment not yet complete) of this question was selected then jump to Q8
  (Reason why impact assessment not yet complete)

Note the survey routing applied dependent on response to Q3
Q4
In relation to the introduction of the ANANA code frame:

What are the nature of the impacts on your IT systems and/or Business Processes?

Please select as many as apply

☐ Technical
☐ Knowledge
☐ Financial
☐ Time
☐ Other

If ‘Other’ please specify

Q5
Will you be ready for the ANANA code format implementation?

You must provide an answer to this question.

☐ Yes, ready by 1 April 2020
☐ No, not ready by 1 April 2020
☐ Unknown, preparation for the change is ongoing

Please enter any additional comments
Q6
In relation to the switch to XML data format:
What are the nature of the impacts on your IT systems and/or Business Processes

Please select as many as apply

☐ Technical
☐ Knowledge
☐ Financial
☐ Time
☐ Other

If 'Other' please specify

Q7
Will you be ready for the XML implementation?

You must provide an answer to this question.

☐ Yes, ready by 27 November 2021
☐ No, not ready by November 2021
☐ Unknown, not ready by November 2021

Please enter any additional comments
Only complete Q8 and 9 if impact assessment not complete (as per response to Q3), otherwise jump to Q10.

Q8
Reason(s) why you have not yet been able to complete an impact assessment
Please select as many as apply

☐ Unclear re changes being made
☐ Relative priority
☐ Lack of resource
☐ Other

If 'Other' please specify

Q9
Level of concern
Please estimate the level of concern you have re the changes and how they will impact your organisation's systems and/or business processes. High concern would equate to impacts of some significance to business as usual operations.

☐ High
☐ Medium
☐ Low
Q10

Any further information you would like to provide re impacts or implementation of ANANA or XML changes

End
